Face & Thumb Print Photo Instructions

- 1- Print this document on clear white paper that is free of any texture
- 2- **For Face Photos:** Staple or tape a passport photo in to the box to the right or if you are Technically savvy insert a scanned image from a PDF/Word editor.

*****Be sure that the lighting is straight forward so there are no pesky Highlights or shadows*****

Cell phone pictures are acceptable only if taken in the proper Lighting. Photos are usually rejected due to low resolution/ grainy pixels, and indirect lighting, so be sure to provide the highest quality photos and resolution scans possible.

Cropped JPG images can be uploaded in the member's LRO account under the MEMBERSHIP Page but nothing less than 640 x 900 pixels and 300 resolution please.

- 3- **For thumb prints**, use a Red FELT Ink Pad, and press into the 5 squares Below

*****for best results do not over saturate the ink or press the thumb down hard, Just press directly & lightly with no rolling*****

The circular rings and scars need to be clearly visible as shown in example
Thumbs will be rejected if they are over saturated, smudged or blurry.

Cropped JPG images can be uploaded in the member's LRO account under the MEMBERSHIP Page but nothing less than 640 x 900 pixels and 300 resolution please.

- 4- Scan full document on a FLATBED SCANNER at the HIGHEST RESOLUTION possible into PDF FORMAT and send to email below. If you are technically challenged please take this to a professional graphics/printing service and have them send the file to this email-
